

Technology

September 2017

Keyboarding

Students in grades 3-8 will again be using typing.com for keyboarding and as always students are welcome to practice at home. Each student has their own username and password and need to login to keep track of their progress.

Cyber Safety

During September grades K-8 will be learning how to stay safe online.

Recycle

I will be collecting used ink cartridges again this year. Cartridge World in Washington picks them up and credits our account. Just send the cartridges with your child or bring them to the office.

Software

The following are some of the software programs that students will be using throughout the school year: Microsoft Office-Word, Publisher, Power Point, Excel, KidPix & Pivot Animator, Google Docs

Email

Feel free to email me with any questions or concerns: stammingerl@sjgschool.org
