

Technology

April 2019

Keyboarding

Students in grades 3-8 continue to use typing.com for keyboarding and as always students are welcome to practice at home. Each student has their own username and password and need to login to keep track of their progress.

Grades K-2 use ABCYA & Dance Mat Typing for keyboarding.

Software

The following are some of the software programs that students use throughout the school year: Microsoft Office-Word, Publisher, Power Point, Excel, KidPix, Pivot Animator.

Grades 2-8 use Google Docs also.

Coding

Students will continue to code using code.org, scratch.mit.edu, lightbot, tynker. We are also learning with Ozobots that we purchased with money made at this year's Dartball tournament. Thank you to all who participated in that fundraiser, the students are really enjoying the Ozobots.

Websites

Some of the websites the classes use include but are not limited to:

voki.com
postermymwall.com
netsmartz.org
sos.fbi.gov
abcmouse.com
turtlediary.com
abcya.com
fungooms.com
typing.com
funbrain.com
mathplayground.com
mrnuusbaum.com
pbskids.org
safekidgames.com
sheppardsoftware.com
scratch.mit.edu
code.org
starfall.com
50states.com
history.com
kids.nationalgeographic.com
